Dear President Jinfei,

Thank you for your letter, since your acceptance as a Full Member of the FCI many of our Judges have visited your country, enjoyed your hospitality and have observed the great progress you have made. The awarding of the FCI 2019 World Dog Show to be held in Shanghai is indeed an honour for China and recognition by the FCI of the strength of Cynology in the Asia-Pacific Region.

The ANKC Ltd Board of Directors have been observing the global protests against the WDS being held in China and many members of our State and Territory Affiliates are supportive of the sentiments being expressed in regard to the sadistic treatment of dogs at the Yulin Festival. To help the Board address these issues the Directors would like you to provide us with information as to what direct measures the China Kennel Union are taking to persuade the Authorities in Guangxi Province to stop the cruel slaughter of dogs which is abhorrent to Australians.

The Directors have also resolved to write to the Chinese Ambassador in Canberra urging him to use whatever influence he has to put a stop to the Yulin Festival and the cruel and inhuman treatment of dogs that is associated with the event.

Kind regards,

Hugh Gent OAM
President & Chairman of the Board of Directors
